5 Afghanistan is responsible for 74 per cent of global opium production, down from 92 per cent in 2007, United Nations Office on Drugs and Crime – World Drug Report 2011 (Vienna, 2011), p. 20. Ironically, as local opium prices show, the more effective the campaign to reduce opium production, the higher the prices – and hence the more lucrative cultivation and trafficking become. For some recent figures, see Afghanistan Opium Price Monitoring: Monthly Report (Ministry of Counter Narcotics, Islamic Republic of Afghanistan, Kabul, and United Nations Office on Drugs and Crime, Kabul, March 2010).
